We are the manufacturer. WE KNOW HOW!

Crimping Tools
*for professionals
for solderless
electrical
connections!*

RENNSTEIG
The Right Tool.

The Rennsteig Crimp System is unique in the industry. We offer the possibility (different Crimp Die Sets) to crimp all common terminals/contacts on the market. With interchangeable die sets, you won't need to buy more than one crimp tool. You can just get an additional die set to fit your existing crimp tool.

Crimp System Tool (One for all)

Burnished Tool Frame

Chromed Tool Frame

This crimp tool combines full features, high precision and top German build quality.

This crimp tool brings it all together:

- High-precision ratchet mechanism for complete crimps
- Parallel crimping performance for even crimps
- 1.2 metric tons pressure at crimping face, with minimal hand effort
- Interchangeable high-precision crimping die set
- Interchangeable locator for precision positioning of terminals
- Ensures accurate, solderless, electrical connections
- **Customized die sets on request**
