

FOR THE TOUGHEST DEMANDS. QUICKRELEASE IMPACT ADAPTORS.

The QuickRelease system, that has proved its worth a thousand times over, can, with immediate effect, also be used in conjunction with power tools, such as impact and power screwdrivers. This has been made possible by the new STAHLWILLE QuickRelease adaptors. The specially robust construction, with the enlarged collar diameter, ensures optimum force transmission and long service lifetimes, while the QuickRelease system effectively prevents tools becoming inadvertently released.

3116/1QR-3316/1QR QuickRelease adaptors

- The tried-and-tested QuickRelease safety lock secures the insert tools while, at the same time, enabling them to be changed quickly and easily – inadvertent release is no longer a risk.
- Special IMPACT version with an enlarged collar diameter increases contact area and improves force transmission.
- For power tool IMPACT sockets to DIN 3129/ISO 2725-2 with internal square drive to DIN 3121/ISO 1174-2.
- High-quality chrome alloy steel, gunmetal finish.
- Three drive sizes (1/4", 3/8", 1/2") available.
- Premium quality »Made in Germany«
